

Schoolology Parent Account

All parents are welcome to sign up for a Schoolology parent account. With your Schoolology parent account, you will be able to monitor your child's homework and grades, as well as communicate with your child's teachers.

Note: A parent account can only be created once you receive an access code from your child's teacher or school.

To Register for a Parent Account

On either a computer or a phone web browser, go to <https://schoolology.com>

In the upper left-hand corner, click **Register**

On the next Screen, click on **Parent**

On the next screen, **enter the access code** you received from your child's teacher or administrator.

On the final screen, enter your **first name, last name, and email address**. You will also need to **create a password** for yourself—be sure to write it down!
